Dear Sharl,

My client, Alla Zorikova, has been informed that your organization picked up 14+ German Shepherd dogs + 14 puppies from a location in Barstow, CA sometime in the last few days.

This was all the result of a false reporting of animal cruelty that has upended Ms. Zorikova's life in the last few days and will likely impact going forward. For your information, no charges were ever filed against Ms. Zorikova and we are treating as a false arrest.

You can review her website that shows the good conditions the dogs enjoy.

Good afternoon, John

To be clear, my office serves only as registered agent for the rescue, which in no way authorizes me to act on behalf of the entity. We are not the organization's counsel. I have passed along your message to the organization.

damages.

As of yesterday, we were
informed that Vegas Shepherd
Rescue has seven (7) of her dogs
and we contacted them today to
seek their return and to demand
they not sell, transfer, spay or
neuter any of those dogs.

As someone who is involved in
animal rescue, we are surprised
you would have any objection to
these efforts. We have to believe
you understand the emotional
distress Ms. Zorikova has
suffered. In addition, since this is
her business, she has
suffered substantial economic
losses as well since these are all
AKC dogs (or equivalent)
with personal protection training.

asked to include an additional person into the phone conversation. Casey Gish got on the phone and identified himself as the attorney for SNARL. Casey Gish works at Law Office of Casey Gish and is a civil attorney.

Gish confirmed knowledge of the stolen dogs. Gish said representatives of SNARL went to an unknown bar in the area of Barstow and met with other animal rescue organizations who were requesting assistance in placing the dogs. Gish confirmed, SNARL took about 20 dogs but was not certain on the exact number. The dogs are no longer physically in the care of SNARL.

Detective Grimm asked Gish if SNARL had information where the dogs were placed after they took possession. He confirmed SNARL did have that information but he refused to provide any documentation of where the stolen dogs were placed. Gish is compiling a separate investigation and is going to provide his documentation of abuse to the dogs to several government agencies. Detective Grimm requested for Gish to provide him with any information about who contacted him and/or facilitated taking possession of the dogs. Gish refused to provide any information in that regard. Gish instructed Moore not to speak with Detective Grimm without him being present. Moore was on the phone during the complete phone interview.

Detective Grimm tried to locate a separate business location for SNARL and during his conversation with Moore and Gish, Gish denied having a rescue center where they house animals. Detective Grimm believes a search of Moore's residence will produce evidence of the theft of the German Shepherds.

Moore provided Detective Grimm with her home address of [REDACTED] Avenue (North Las Vegas, NV 89031) which Detective Grimm was able to also confirm with a records system's check.

WHEREFORE, Affiant requests that a Search Warrant be issued directing a search for and seizure of the aforementioned items at the location set forth herein and authorizing a day time search between the hours of 7:00 a.m. and 7:00 p.m.

This office represents Alla Zorikova.

We contact you as the person listed on the Nevada Secretary of State website as authorised to act for Vegas Shepherd Rescue. We are also sending this same letter through the VSR website.

Ms. Zorikova had a number of German shepherds stolen from her property near Barstow, CA between August 8-11, 2020.

She has informed us the following of her dogs are shown as available on the VSR Facebook and website pages:

Cypress, Malibu, Lodi, Baker, Berkley and Beacon (dated 8/12). Another dog is unnamed.

For convenience, we attach photos that VSR has posted that are Ms. Zorikova's dogs.

All of these dogs are pedigreed, have microchips and can be DNA tested.

Ms. Zorikova filed a report with the San Bernardino Sheriff (Barstow Station) for these dogs.

We request that you contact the undersigned so she may recover them as soon as possible.

Demand is hereby made that VSR not sell, transfer or give away any of these dogs.

Memo

08/17/20 Myself and O-94 MC with the owner and her daughter. The owner drove us to a Government owned spring where they get their water. She then walked us around the property and showed us all the dogs who all had water and shelter. She stated she picks up left over meat from Barstow Country Butcher daily for the dogs food. The address to the property is 1320 Trump Rd, but it does not come up on the map yet. I took pictures and put them in O-67 folder. H9045/O-85

8/8/20 O-67 arrived to the call and said all dogs had water and shade. O-67 said all dogs were healthy and normal. He said there were 50+ dogs on the ppty and they all had water and shade in their cages. O-67 said the dog owner was going to be arrested for 597 due to the Deputy's not viewing water and shade. I told O-67 we weren't going to impound the dogs today. I told him to make sure the dogs have water and we will return on 8/9 to ensure the dogs still have water and aren't in distress, we hung up the phone. O-67 called me back asking about under age pups on the ppty. I asked to talk to an Officer on the ppty, the phone was handed to a SGT. I was unable to get his name due to the fact he was so upset we weren't impounding dogs. I listened to him about how he is leaving and didn't care what animal control does or doesn't do. I told O-67 to post the ppty and impound all under age pups that didn't have a mother. I called O-67 back to make sure SO knew ACC wouldn't pay for the cost of the dogs or any of the fees that incur. He put me on the phone with officer Parsons. I explained to her Sheriff Dpt will have to pay for all the cost of the dogs. She went on a rant about how she doesn't care she is only there to uphold her officer oath. I was able to explain to her we were not picking up 60+ dogs today and we would return each day to water and feed to ensure none of them go into distress, until we make arrangements to impound all 50+ dogs. B4869

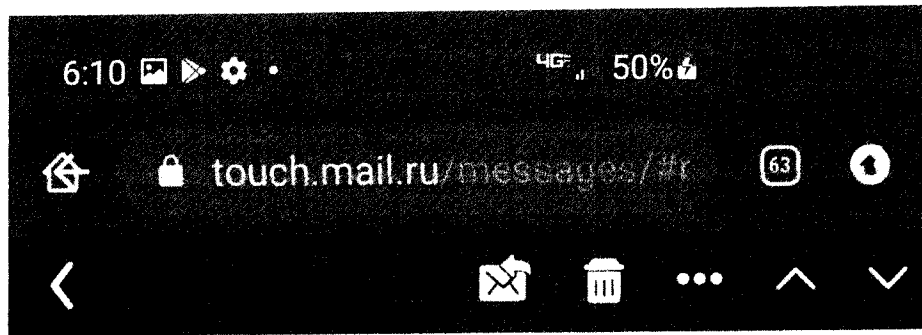

8/8/20 I MIC with S/O and was able to see many dogs in plain view on property. The dogs were all large G-Sheps were in pens with shade cloth. All the G-sheps had shade and shelter all had little water. None of the dogs appear to be in distress and all appear to be healthy and normal. S/O and dog owner gave the dogs water. There were 12 pups unknown which of the female dogs was the mother. Per O-89/O-90 the pups were to be impounded and the property is to be posted for 24 hr abandonment. I posted the front gate, side gate, and the little house/shack @ 16:20 for 48 G-Sheps per S/O they arrested dog owner for 597 animals in distress. pic in O-67 folder. c3865

8/8/20 directions to the property: hwy 15 north to hwy 58 west, go north on Haper lake Rd for about 6.8 mi. you will then turn left on Hoffman Rd till paved rd. at end of paved rd go right for about 4.1 mi at the pole with blue ribbon go left for 0.1 mi and go right for 0.8 mi then left at the red pole the prop will be to your right. c3865

08/08/20 met with Dep Parsons and we fed and watered the dogs. All of O-67 notices were still up and the dogs were still on the property. I counted at least 63 dogs but they were hiding in the dense so it was hard to get a full count. I posted 7 O-67 notices for abandonment for the 60+ dogs and 1 chicken. When I was leaving Dep Parsons had someone pick up a Dodge Ram 2500 as 8866 with a man and a woman in it followed by a larger white van with German shep stickers on it. I tried to talk to them but they would not speak with me and drove East on Hoffman Rd. I did not get the lic plate numbers for the truck but I did get a partial plate on the van. The first 3 letters were "AKC". I was unable to take pictures as my camera was overheating and not working properly. H9045/O-85

08/17/20 I took pictures and noticed a significant amount of dogs were missing and the chicken was gone. O-55/Stevens counted 25 dogs on the property. We impounded 1 dog that was stuck under a fence trying to get shade under a board. A neighbor Lt Molina noticed goats on the North/East corner side of the property line. I went to go check and there was a m Nigerian dwarf goat tied with a collar and chain to the ground as well as a Nubian/Afrique mix female goat who was also tied down by a collar and chain. Neither goat had food water or shelter. We put both goats in the truck and gave them water. 21 dogs and 2 goats were impounded in total. Lt Molina was then leaving the property and a white van with German shep stickers and advertising of rescue pulled up. Lt Molina asked why they were there and the woman stated this was the first time she was out here and Lt Molina took down her lic plate which was "AKC-GSD" and there was a phone number on the side of the van "303-267-8215". The woman would not give any more information and drove away. All pictures are in O-67 folder. H9045/O-85
